

With the beginning of this week having no classes due to fall break, all three of us were out of town until Wednesday, which meant we were not able to make much progress on our project. The one thing we did get finished was our website. On the website, we will include our weekly reports, presentations, other important information, and will be careful to not include important IP information. The website will be updated periodically, so it has up to date information.

Project created on 06.09.2016 02:03.

Report for project Senior Design

Task created on 13.10.2016 17:19.

Website

No due date

Condensed Location of Overview of Project - Update Frequently. Project Led by Brian

Task tags: *No tags*

* Created by Kyle Sachdev on 21.10.2016 15:29.

- Brian took control of setting up our webpage
- We used weebly to make the site
- On the website we will include our weekly reports, presentations, and other important information
- Brian will be the team member updating the website periodically to make sure it stays up to date
